Why Choose Us

Deep Industry Experience

Industry leading knowledge for Deepfake threat landscape, we research emerging threats and replicate real world attacks.

Cybersecurity Expertise

We are committed to providing innovative and cutting edge solutions for the Cybersecurity community.

Rapid Value Creation

Our solutions are fully managed, no need to rip and replace or deploy additional tools. We do all the heavy lifting for you.

Our Services

Increase in Deepfake Attacks Globally

Quarterly: \$5,499
Annually: \$16,497

Deepfake Penetration Testing

- Deepfake Attack Simulations covering emerging threats.
- SMS Based Voice Cloning and Deepfake Video.

Deepfake Vulnerability Assessment

- Identify Human Vulnerability to Deepfake Attacks.
- Asses security posture and controls against Deepfake attacks.

Deepfake Education Training

- Micro-Curriculum and continuous education.
- On-The-Spot Targeted awareness testing.
