

Security Awareness

Security Awareness Designed to Address the Next Generation of Threats.

Increase in Deepfake
Attacks Globally

**Elevated Awareness Training For
Enhanced Use Resilience.**

Why Do You Need This?

Social Engineering and Phishing is becoming increasingly targeted. Hyper-targeted attacks against users and organizations require a surgical response.

Our Hybrid approach tests organizations for Email, SMS, Deepfake and Social Engineering threats. We focus on threats beyond just the inbox. We cover video, SMS, Mobile, Teams, Video and Deepfake audio and video.

We in parallel assess human and organizational risk and vulnerability to emerging threats like Deepfake, then align precise user awareness training to these threats.

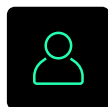

You get both Hook Security Premium (Customer Managed.)
Breacher.ai Deepfake Simulation and Targeted Awareness Training (Fully Managed.)

Why Choose Us

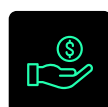

Competitive Edge + Differentiator

Industry leading knowledge for Deepfake threat landscape, we research emerging threats and replicate real world scenarios. Award Winning Content from Hook Security.

Managed Cybersecurity Expertise

We are committed to providing innovative and cutting edge solutions and approaches that are easy to use and engaging for your employees.

Protect Your Organizations

Our solutions are the most comprehensive for Deepfake on the market today. Our combined offering is the most comprehensive for combating Deepfake by far.

What do you Get?

Breacher.ai (Fully Managed)

Deepfake Simulation Testing (100 Users Per Quarter W Rollover)

Deepfake Vulnerability Assessment (Business Controls)

Deepfake Risk Assessments (Organizational Assessment)

Deepfake Micro-Curriculum (Entire Organization)

Hook Security (Customer Managed)

Full User Awareness Training (All Users)

Phishing Simulations (All Users)

Deepfake Education & Awareness (All Users)

Hook + Breacher.ai

Deepfake attacks are occurring more than are making it in the news. This threat should be high on your radar. Don't panic, we've got you covered. We layer on top of existing Awareness Platforms or we can replace your existing.

You get to manage your awareness program with Hook and get full control. Award winning content for User Awareness training.

Full control over managed email Simulations. We partner with you for Deepfake simulations.
